

HEADACHES

CASE HISTORY: Male , age 20

Headaches such as he starts to read. Was Myope of -.50 for 3 years. Would not wear glasses for distance so gave O. N. +.50 for reading purposes, which were worn part time at college.

Description: Pyknic. Round face, eyes half closed, double chin, short neck, stocky appearance, some acne, pink and puffy over upper lid just under eyebrows, small Gonad teeth.

VISUAL CONDITION: Vision Dist. R. 20/50 L. 20/25. Rx. R. -.50 L. -.25
Vision with this Rx. 20/20. Dist. 4 exo Near 6 exo
No lenses prescribed.

SYNTONIZATION: N/L α θ . Unable to hold one light during Nascentization or with filter. After third Syntonization holds one light O. K.
Dist. Phoria 2 exo
Rx. OD -50
OS -25 Vision 20/20
Near Phoria 6 exo
Reading with comfort. No headaches.

Gave 12 more Syn. To make this condition permanent.
N/L α θ alternated with N/L α ω .

Still requires same Rx. To get 20/20.
Pink lids gone, Acne less, looks and feels better.

Will return for more Syn. If headaches return.
