

GLAUCOMA CAUSING OPACITIES

CASE HISTORY: Mrs. J. T. age 57, housewife.
Eyes hurt at night and when looking at objects.
Feeling of soreness in eyes most of the time.
Fitted with glasses by a Practitioner a year ago, and could not wear them. Also consulted a Chiropractor; also M.D. who gave drops to put in eyes which caused too much pain, and gave no results, so quit. M.D. gave a tonic-no value.

DESCRIPTION: Short, Pyknic

VISUAL CONDITION: Without lenses: Vision about 20/400 O.U.

SYNTONIZATION: 5 applications N/L $\cup \omega D$
When prescribed:
R. +1.75
L. +2.25 with +2.50 add
V. 20/22
Then gave 16 applications of $\mu \cup - \mu \delta$
On 1/1 bases.,

RESULTS: Eyes no longer pain, sleeps well, cortical
Cataracts practically gone. Patient discharged.

Submitted to the Oregon Academy of Syntonic Optometry, Feb. 27, 1938
