

## ITCHING AND BURNING OF THE CARUNCULAE

CASE HISTORY: A. C., Female, Age 59, Married, Mild Conjunctivitis associated with itching and burning of the two carunculae. Her first visit was made January 6th. She has worn for four or five years a pair of "light blue" bifocals measuring  $-0.25$  with add of  $+1.75$  O. U.

DESCRIPTION: A/S. Bridge of Nose is narrow and depressed. Good weight and Medium Height. Anabolic.

VISUAL CONDITION: OD 20/50  
 OS 20/40 OU 20/30  
 Correction: OD  $+0.50$  x 90 20/30  
 OS  $-0.75$  x 150 20/30 20/20  
 Add  $+2.25$   
 Esophoria 2  
 R. Hypo. Tendency.

SYNTONIZATIONS:  $\mu$  U for 15 minutes was given on Monday, Wednesday and Friday. All symptoms having disappeared, the case was dismissed. She did not return until June 11th; saying she wanted a pair of reading and sewing glasses, which I ~~made~~ made up according to the above prescription. There has been no return of the former inflammatory symptoms.

Submitted to the Oregon Academy of Syntonio Optometry on July 10, 1936.
