

AMBLYOPIA

Male, age 75, retired. Had prescribed glasses
Three years ago for poor vision with only fair
Results.
Changed Rx one year ago with no improvement in
Vision.

Poor vision, couldn't read.

N.V. 20/200 O.U. Rx +2.00 x 110 O.U
+3.00 add O.U.

1 $\alpha \delta$ (alpha delta) made eyes sore
1 μ (MU)
2 $\alpha \delta$

Vision now 20/20 with Rx
+2.00 +2.00 x 110 O.U.

Eyes feel find.
